

Dec 14 Care Coordination

Thursday, December 14, 2017 9:05 AM

Review of workplan

Discussion of common intake form -- some draft is available from HEART Board in Linn Co, and Samaritan UCC workgroup

- Add "in collaboration with" other workgroups that are working on this issue

RHIC presentation

Security/HIPAA issues (handout)

RHIC - aka CareTeamLink

HIE=Health Information Exchange

There are several across the state

HIPAA compliant

Data access by role

Potential for exchange with other systems

Interest in building a pilot for closed loop referral

Connecting with VA, and other HIE systems

RHIC serves as an info hub, aggregating info from partner systems for an integrated view

Concern raised about protecting clients who may be undocumented

Implementation with partners

- Assessment of partner info systems
- What data would they like to share and see
- What roles are there in the partner org
- What data needs do roles have
- CURRENT: No charge for system -- long term, that may change

Pegge comment

We need

Common intake

Common data platform

Referral process

Common terms that we all agree on

Crisis intervention/recovery when folks fail out of housing

HOMEWORK for Care Coord

All bring intake forms

AST, YST, Men's Shelter
